17MB130(SEBT) with Amazon FULL SOFTWARE UPDATE PROCEDURE

1. First of All, make sure you have all these files; "mb130_en.bin",
   " mb130_RomBoot_AMZ.bin" (for mb130/130S) or " mb130E_RomBoot_AMZ.bin"
   (for mb130E/B/T)
   " mb130_PM51_connected.bin "
   "usb_auto_update_G6.txt",
2. Copy all files to USB stick (to the root, not to subfolder).
3. Turn the TV off and unplug from main.
4. Plug the USB stick to TV(MB130).
5. When you are pressing OK button on the remote control, Plug Tv(MB130) to electric socket at the same time. (Reset the TV and press the OK button immediately)
6. The update shall be processing while system booting up.
7. led will be blinking quickly. then led blinks normally and First time installation menu will come to screen.
8. After installation, you should do Power off/on for once. then it will be ready.

Note: This will erase all the settings and channels you previously available on TV. TV will come on FTI screen.
